Thinking Out Loud

(By H. M. L.)

Former President Hoover is to speak in Grass Valley in Memorial Hall during the Fourth of July exercises there. We can almost forecast the gist of what he will say. He will praise the wisdom of the Fathers and their framing of the Constitution. He will point out the methods that may be used to make that instrument flexible to changing needs of the country, and he will deplore irregular and make-shift efforts to modify, alter, or abrogate in times of stress and emergency, its stable assurance and guarantee of our liberties and rights. His comment will be general in character but any person of his audience will be able to make specific application of the principles enunciated.

Memory goes back to that "speech of acceptance" uttered in the great Stanford stadium some six years ago. We never hope to hear a more idealistic utterance in this country, that is really moved by high ideals and makes them its goal. The goal is dimmed sometimes. Adversity befogs clear vision, but ultimately the clouds clear and again we see it, if not as clearly, at least as definitely as Washington, Jefferson, Lincoln and Wilson saw it.

Every man of generous thought and patriotic vision in this country believes in a more equitable sharing of its enormous wealth. The question is only one of means to an end. The richest men in the whole world believe in the ideal; witness the voluntary sharing done by the country's wealthy men and women, from John Harvard, down through generations. Morgan, the elder, Vanderbilt, Duke, Leland Stanford, Phoebe Hearst—the list is long. Where there has been so much of this voluntary sharing and the principle so clearly established, it should surely be but a short step to attain the goal of a more equitable distribution of the country's wealth. But thus far no leader has arisen to present a solution which appeals to the great majority.

Taxing can bring us to this goal, of course. But will it bring us a better or worse result. The money that fomerly went into great endowments of medicine, law, research, hospitals, universities, libraries, art museums, and scholarships, would pass from the hands that sought a kind of immortality in giving it. It would go into the hands of our government officials who rarely prove themselves great or generous. Only the resolute energy and ever watchful vigilance of the people themselves, will prevent the squandering of the money. In reducing the high peaks of the very wealthy, we must fight to prevent the lowering of the whole plane of living for the millions of poor. The struggle must be, if taxes of the wealthy are increased, to see to it that the taxes of the great mass of people are reduced. Otherwise any sharing the wealth plan fails abominably.

The world looks askance at Italian preparations for taking over Ethiopia. Italy's chief grievance seems to be that Ethiopia tolerates a species of banditry which knows no borders. This was the grievance Japan, ostensibly, in Manchuria, and it was almost the cause of a declaration of war against Mexico in this country, following the Villa raid.

Despite wars and famines, plagues and floods, and the natural toll of death, the population of the earth grows. Those nations that are crowded upon land cultivated to the last cranny in the rocks, look enviously upon the wide territories of barbarous peoples, who make only the most primitive use of their land. The highly civilized and scientific peoples crowd incessantly across the borders of the backward and underdeveloped countries. It is the law of the survival of the fittest. The time will come when the population of this country has reached, perhaps 150,000,000, that this nation will push southward and envelope Mexico and ultimately reach the Panama Canal zone.

The farmer who inherits broad, fertile acres without the ability that first obtained and mastered those acres, clings to his land, using oxen for motive power when horses have proved better, or horses when motors have displaced them, old methods of cultivation and harvest when all around his neighbors have adopted the modern day systems of a highly competitive agriculture. Ultimately he loses his land. Not by violence to be sure, but by the legal process of foreclosure. Thus with backward peoples throughout the world. Little by little, by war or "peaceful penetration" they lose their foothold. China with its effete civilization and futile reverence for the past, Africa with its savage undisciplined hords, cannot withstand the pressure of teeming populations equipped and ready to seize what they must have.

CITIZENSHIP IS LOST BY SELLING BOOZE TO INDIAN

Monday eight new citizens were admitted to citizenship in the Nevada County Court.

Wednesday one man lost his citizenship granted in June 1934. Judge Raglan Tuttle made an order in the Superior Court Wednesday setting aside a previous order admitting Humbert Ciardelli to citizenship. The order was set aside on the ground that the defendant had been convicted of selling liquor to an Indian which under the federal law is a felony.

The court in the opinion setting aside his citizenship says:

"The Federal naturalization act provides that the applicant during the five years of residence required by that law, shall have behaved as a man of good moral character. The holding of the courts is practically universal that the commission of a crime by an applicant at least during the five years preceding his application for citizenship, is sufficient reason for denying him citizenship on the ground that he has not behaved as a man of good moral character.

The offense alleged against Ciardelli was commited within a month prior to hearing the application for citizenship and long after the declaration had been filed, and it has been held by the federal courts to be a felony.

Counsel for Ciadelli maintained that the offense of selling liquor to an Indian was in the same category as that of a violation of the Volstead act and that some courts have held that such a violation will not be a bar to admission to citizenship.

Judge Tuttle in his opinion in the instant case holds that the motion of the government must be granted and the order admitting Ciadelli to citizenship "must be vacated and set aside, and his application for citizenship is hereby dismissed with prejudice. The court holds however, that it may be renewed when five years have elapsed from the date of the conviction of the charge of selling liquor to an Indian.

MUSICIAN WRITES FOR "ETUDE" ON LEFT HAND VIOLINIST TEACHING

Thomas R. Caldwell, Nevada county violin instructor, received word last week from the music magazine "Etude" that an article submitted by him had been accepted for publication at a future date. Etude is almost as exclusive in the world of music as the "Atlantic Monthly" is in fields of literature. Mr. Caldwell merits the congratulations of all his friends for this signal accomplishment.

The article deals with advanced violin technic for the left hand.

VACATION JOYS FOR GIRLS AT LAKE VERA

It is understood there are about 200 Camp Fire Girls and counselors at Camp Augusta or Piedmont on Lake Vera north of Nevada City at the present time. A number of counselors are at Camp Celio or the Oakland camp and many Camp Fire Girls are expected to spend their vacations there this summer. There are about 75 girls at Gold Hollow from the Y. W. C. A. of the bay districts, and Sacramento.

It is understood the Camp Fire Girls are making elaborate preparations for stunts at camp on July first. Miss Vivian Rhodes, dramatics instructor, who assisted in giving some splendid entertainments two years ago is here again and very entertaining programs are in store.

INDEPENDENCE OF RURAL COUNTIES IS THREATENED

SAN ANDREAS, June 27.—Returning home last week following a 125-day session of the California state legislature, Assemblyman Jesse M. Mayo of Calaveras county predicted that rural California and particularly the mountain counties in the Sixth District of which this county is a part, would be faced with a real battle for self-preservation in the legislatures of the future. In making the prediction, Mayo cited the many measures offered at this session which sought to destroy the independence of the small counties by consolidation and concentration of power in the larger areas.

Declaring that there is a determined drive by the larger centers of population to broaden their tax base by annexing smaller counties, Mayo cited the several measures designed for this purpose which were defeated at the session just closed. "The almost solid support of more than a score of schemes to centralize and consolidate California's 58 counties by the large city delegations in the Assembly under the lash of William Randolph Hearst, convinced me," said Mayo, "that we are in for a real battle in future sessions, if we are to preserve our independence of political domination by the metropolitan centers of population."

Constitutional amendments and bills seeking to consolidate the State's 58 counties into 15, 30, and one, the "Hearst Plan," consisting of only five counties, were offered during the session just closed. In addition several measures which would have abolished Superior Judges, sheriff's offices, and township officers in counties under 20,000 population were introduced.

"While all of these measures were defeated, it took much hard work on the part of rural legislators to win against the large block of votes in the Assembly from the state's three metropolitan centers," stated Mayo.

Assemblyman Mayo listed the following measures, introduced by him, which passed both houses and most of which are now awaiting the signature of the governor.

A. B. 441—Strengthens the mine wage law enacted two years ago, by compelling wild-cat mine operators to have at least two weeks' pay on hand in a local bank at all times for every man employed.

A. B. 442—Provides for only two deer seasons in entire state. Designed to stop the practice of deer hunters from killing the limit several times each season by traveling from one district to another.

A. B. 444—Increases gas tax distribution to the mountain counties from a minimum of $20,000 per year to $30,000. Under the measure Nevada and Calaveras counties will receive approximately $10,000 more each in gas tax funds than previous years.

A. B. 669—Provides legal machinery whereby property deeded to the state, can be redeemed by the original owner for less than the amount of taxes and penalties, if the penalties and taxes exceed the value of the property.

A. B. —(co-author)—Unemployment insurance. Provides an insurance system in cooperation with the Federal Government whereby workers who are thrown out of employment would receive weekly benefits from $7 to $15 per week. The measure provides that the fund shall be built up from contributions from both employee and employer.

A. B. 1001—Snow survey, provides for a co-ordinating agency to make a snow survey in cooperation with the Federal Government in order to ascertain the water needs of the state.

A. C. R. 30—Calls upon the State Fish and Game Commission to conduct an experiment in winter feeding of deer in the heavy snow country in order that thousands of deer may be saved from starvation annually in the state.

In reciting his legislative experience at this session, the Sixth District assemblyman stated that his hardest battle came last week when after considerable debate, he was able to defeat an amendment offered from the floor to the oil severance tax bill, which would have placed a 5 percent gross tax on newly mined gold and silver, and a heavy tax on timber, cement, metallic and non-metallic minerals. During the debate, Mayo presented figures which showed that a 5 percent gross tax on gold and silver would seriously injure gold mining, if not entirely destroy future mining operations and that a heavy tax on timber and other natural resources produced in the mountain counties would in effect be placing an internal tariff against local products that have to compete against the same products produced in other states. The roll call on the amendment showed 45 votes against the amendment, to 32 for it.

HOOVER WILL BE SPEAKER IN JULY 4TH PROGRAM

Former president of the United States, Herbert Clark Hoover, whose term of office as the national executive covered the span of years between 1928-1932, will be a speaker on the Fouth of July program of the city of Grass Valley next Thursday morning.

Acceptance of the invitation of the Grass Valley committee was received by the program chairman, Earl Covey. In his message of acceptance, the former president stated that he would be present and would be pleased to appear on the program for a 12 or 15 minute address but declined to become the principal speaker of the patriotic exercises.

The program is scheduled for the huge Veterans Memorial Building at 11:15 o'clock of the morning of July 4, immediately after the conclusion of the colorful three division parade.

The ex-president in his early career as a mining engineer, engaged in practical mining at the Reward mine at Nevada City and has visited the Grass Valley-Nevada City territory since his retirement from national office on either mining and fishing expeditions. The former president boarded at the house on Boulder street, formerly belonging to Joe Flemming.

The former president and his party and Fourth speakers will be the guests of the general committee at the Bret Harte Inn at luncheon during the noon hour.

Mr. and Mrs. Hoover will be the guests of Mr. and Mrs. Fred Nobs Wednesday night before the Fourth.

CAMP PAHATSI OPENS TO CUBS NEXT SUNDAY

The Tahoe Area Council summer camp period opens Sunday, June 30th, starting with a weeks camp for Cubs, 9-10 and 11 year old boys. Wednesday of this week an advance crew of twelve went to camp to complete preparations and have everything in readiness when the campers arrive Sunday afternoon. With the advance crew went two truck loads of food, supplies and equipment for a camp of six weeks duration. This six weeks period includes the first week for Cubs than three weeks for Scouts and two weeks for Camp Fire girls.

The Cub camp program staff will include Harris Ricksecker, Elwyn Gregory, M. S. Beecher, Sam Partridge, Fred Stephen, Jim Howell, Bill Hatch, Jack Schultz of last years staff with the addition of a number of others, making a total of 25 leaders senior and junior.

Fresh meat, milk and bread will arrive daily and Mrs. Dalby, camp cook for the past five years is preparing some new treats in the nature of turkey and cakes in the effort to see that campers are well taken care of inwardly.

Both Cub and Scout camp registratins are now ahead of last years registrations as of the same date, so camp promises to be as large or larger than last year.

Robert Allen of Boulder street, who has been confined to his home by illness several days is making a splendid recovery.

No More Federal Aid for Shirkers Says State Administrator

SAN FRANCISCO, June 27.—California's share of the new four billion dollar works program will approximate $200,000,000 to be allocated from Washington in the next twelve months for the benefit of California industry and unemployed.

This was the prediction today of California's Works Progress Administrator, Frank Y. McLaughlin, upon his return from Washington conferences called by Harry L. Hopkins, Federal Chief of the Works Progress Administration for the new program.

A full day's work will be demanded in the new program, and there will be no place either in the program or on the relief rolls for those who refuse to work or are incompetent, McLaughlin reported. These people will be ruled "unemployable" and either must find jobs for themselves or depend upon local charity for aid, in the new plan, he said.

UNEMPLOYED 5 PCT. OF U. S.

Yardstick for allocating the Federal Works fund is the percentage of needy unemployed in each state, McLaughlin declared, and California contains approximately five per cent of the nation's unemployed on relief.

This same "rule of the thumb" the relief load—will govern allocations of funds in California, McLaughlin said; and the various localities may expect allotments depending upon their percentage of needy unemployed on relief during May.

Exceptions will be projects sponsored by other Federal departments, such as the Departments of War, Interior and Agriculture.

In describing the broad outlines of the new program, McLaughlin declared it is based on two statements of the President:

FEDERAL RELIEF TO END

That "work must be found for able-bodied and destitute wowrkers," and

2. That "the federal govenment must and shall quit this business of relief."

"The instructions received from Mr. Hopkins are to accomplish the President's objectives as quickly as possible," McLaughlin said.

Six essentials in the operations of the new program were outlined by McLaughlin as follows:

MAY LISTS TO BE USED

1. Cooperation with industry in private re-employment. The WPA and United States Employment Service are jointly charged with this task.

2. Until industry can re-absorb the load of destitute able-bodied workers, to provide employment upon useful public projects for the largest possible number of these individuals. These jobs are to be filled first from lists of those on relief during May.

3. The new program is exclusively under Federal control, with the Works Progress Administrator directly answerable to Washington.

4. The emergency relief administration will continue to be responsible for those relief problems in which the Federal government may continue to participate, insofar as they are not liquidated by the works program.

FLAT WAGE SCALE

5. Workers will be taken from the relief rolls and placed in WPA jobs through the United States Employment Service, and will be paid on a basis of late wage scales approved by the President. Most projects will work a 40-hour week.

6. Projects must be sponsored by municipalities, counties, or other governmental units, and must be submitted through directors of the ten districts into which California will be divided for the purposes of the new program. Projects will be subject to final approval by authorities in Washington and allotments will be made from Washington.

TWO STATE DISTRICTS

Under the new program, San Francisco and the bay area will comprise one complete district, and Los Angeles county another. No district directors have yet been appointed.

Purchases and payment of wages in the new program have been made a responsibility of the Treasury Department.

Local SERA offices will send lists of their relief clients to the WPA and the U. S. Employment Service, which will classify and place workers in the program.

NEW BUSINESS BLOCK TO OPEN IN G. V. TONIGHT

The Jensen & Thomas Furniture company holds its grand opening in the new business block erected by the company at 556 South Auburn street, Grass Valley, this evening, tomorrow and tomorrow night. The new store, 65 by 65 feet in dimensions is the finest furniture store this side of Sacramento. Five prizes are offered to those who visit the splendid new furniture emporium this evening and Saturday and Saturday night. The first prize is $179 chesterfield suite, of high grade workmanship and beautiful materials. Other prizes bring the total offering to $250 of the best kind of household furnishings.

The business block has two other stores, both of them leased, Ray Fuller has installed in one of them a modern and extremely attractive drug store, with fountain and all the latest fixtures. He carries a complete stock.

The block itself covers an area of 60 by 108 feet and is an imposing and impressive structure, heralding a new day of development of a business section along Auburn street.

MINING EMPLOYMENT

Mining—Employment in mines in and around Grass Valley and Nevada City is estimated at 2,250 which is the largest number employed locally in the mining industry since the 80's, according to reports from that section.—From June Bank of America Business Review.

PLANS ARE MADE FOR SAN JUAN LEAGUE HALL

The committee of the San Juan League for the construction of a community hall and dance floor has submitted a definite plan to the League, according to Mrs. George Uhrig, league secretary. The hall will be constructed on property donated by W. E. Moulton, and will be not less than sixty by seventy five feet, according to the plan submitted by the committee to the League. The plan must be formally accepted by the League, of course, but it is quite probable that it will be accepted at a special meeting to be called in a day or so.

An estimate on the lumber has already been secured, and as soon as the League's application for an SERA loan is granted, work will begin. The League plans to hold a "Homecoming Week" sometime in August, and it is hoped that the hall will be completed by that time.

FAMILY REUNION

Mr. and Mrs. John Ghidotti had as surprise visitors twenty five cousins and other relatives of Mr. Ghidotti from Sacramento and Plumas county last Sunday. They motored up into the higher mountains and enjoyed a delicious chicken luncheon picnic style. A beautiful spot among the pines with a cold stream of water running through it proved a happy setting for this poyous family reunion.

Applied Christianity

(Contributed)

If we were a preacher and desired a text to show the progress of Christianity and the teaching of Christ in the world today we would take it from the situation that faces the country today. There have been many times in the past history of the world when there has been famine, want and unemployment and even actual starvatoin, but there never was a time in the history of the world when the unemployed had less to fear so far as actual want and starvation and physical suffering are concerned in this country and in England. There is not a parallel to the present day relief program in all of history. In many nations of the world even today where the teachings of Christ have not been accepted, to the degree that they have in America and England, starvation, when unemployment and famine comes, is a common thing. In India and China and many other nations the public conscience and the government permit the unfortunate to die like rats and not a finger is lifted, not a dollar in food or medical services is provided. It might be well to remember this when we are inclined to despair that the human race is making the headway that it should in the matter of incorporating the teachings of Christ into its daily living.

Mirage

Child of the tawny desert,
You come for a moments play,
Thrilling with joy and wonder
The heart of a listless day;
You quiet our homesick longing
And banish our wasteful fears,
With visions of life and beauty
That wait in the coming years.

By the ghastly desert ranges,
From a sea of shifting sands,
You smile in pensive beauty
And beckon with fairy hands;
And with mystical arts you conjure
Scenes that we used to know,
Green trees and a flashing river
And shores where the rushes grow.

Down by the shrivelled chimeso,
Where at noon a serpent lay,
You fashion a magic garden
Where a little child might play;
A vine embowered garden
Beneath a cloud flecked sky,
Where long, cool, wavering shadows
Across the green sward lie.

You are the prayer of the desert,
The soul of its longing too,
The hope of its burning bosom
Our eyes have visioned in you;
And you come with a glowing promise—
A promise the desert knows,
That sometime the grim, waste places
Shall bloom as the fragrant rose.

—A. MERRIAM CONNER.

NEVADA CO. TAX RATE TO DROP

LOS ANGELES, June 27.—If Nevada county government plans to spend the same amount for the coming fiscal year as it did for the curfent year, taypayers of the county can expect a reduction in the general county tax rate of $1.26, or a county tax rate of 94 cents, as compared with the rate of $2.20 per $100 of assessed valuation for 1934-35. These facts are brought out in a study, recently completed by California Taxpayers' association, of the effect on county tax rates of the return of the operative property of utilities to the local tax rolls and the equalization of assessed values to a common valuation level of 50 percent.

According to the study, $6,509,-925 of operative property will be added to the tax rolls of Nevada county T.he county taxable valuation for 1934-35 was $6,396,175, based on an assessed assessment ratio of 38.10 percent to true value. When the 50 percent common valuation level is applied, this should result in an estimated equalized valuation for 1935-36 of $8,394,000. With the addition of operative property, the county should have a total taxable valuation for 1935-36 of about $14,-903,000. On this valuation ,a 94 cent tax rate will yield as much for the county to spend as the $2.20 rate on a taxable valuation of $$6,396,-185 yielded in 1934-35. The study assumes that the true value of non-operative property in the county will not change materially in 1935-36 compared with 1934-35.

The study made by the Taxpayers' association was on the general county tax rate, the only rate which applies uniformly to all property in the county. Practically every tax bill carries other tax rates, the association points out, both for the school districts and for city and other district levies. Some of these smaller areas may be doubled or trebled in value by the return of operative property; in others there may be no operative property at all. No two of the more than 11,000 taxing districts in the state will be affected exactly alike. In general, however, the trend of the tax rates should be downward because of the broadening of the tax base.

It must not be taken for granted that the reduction in tax rates made possible by these changes in the tax system will go into effect automatically. the study concludes. County, school and city officials will be strongly tempted to hold to existing rates and enjoy the additional revenue accruing from larger taxable valuations. Economy is not necessarily a habit of government. With the return of operative property to the local tax rolls, something like $30,-000,000 per year in new revenue has been made available to local governments in California. Unless local taxpayers see that their tax bills, in the aggregate, are reduced by this $30,000,000, efforts to relieve local taxpayers will have been in vain. It is up to local taxpayers to see that their tax bills are reduced.

A naval officer fell overboard. He was rescued by a deck hand.

The officer asked his preserver how he could reward him.

"The best way, sir," said Jack, "is to say nothing at all about it. If the other guys knew I pulled you out they'd chuck me in."

JAMBOREE TROOP IN AUBURN MEET

The second meeting of the Tahoe Area Council Jamboree Troop was held last Sunday at Auburn with 100 percent attendance on the part of the Scouts. Announcement was made that there was the opportunity for any Scout of the Council to go to the Washington Jamboree who was interested in making the trip, who could meet the qualifications of the National office and who could entirely finance himself with the aid of his parents. This ruling had only recently been received from the National office. These applications must be placed within the next week at the Council headquarters.

The four hour training session included work on pack frames, troop and patrol organization, the oppointment of patrol officers, marching, instruction on equipment and camporee program details. The Scouts labored with fine spirit, augering well for the success of the trip.

At the close of the meeting Jamboree posters were issued each Scout for distribution. Each Scout was issued a pack frame which was taken home for completion. The third meeting of the troop will be held next Sunday from 1 to 5 p. m. again in Auburn. Scout Executive Harris Ricksecker and Assistant Scoutmasters Sam Partridge and Fred Stephen and special Council Representative George L. Jones were in charge of the meeting. M. H. Ellestad of Auburn and Frank Chilton of Roseville assisted in completing pack frames.

A practice overnight Jamboree camp will be held the latter part of July with full equipment ready to leave for Washington, August 9, 10 and 11 the troop will meet for a final three day training period two days prior to leaving for Washington, D. C. by special train.

WHO MONKEYED WITH CUB SCOUT BEANIES?

Cub Camp at Pahatsi on Kilborn Lake, opening June 30th has developed a mystery. Who put the initials on the Cub Camp "beanie"? What do they mean? A prize is being offered July 4th to the Cub camper who presents the correct solution. In other words the new red and white camp "beanie" is creating a sensation. One Cub went to sleep mumbling words to fit the letters on the hat.

Registrations for the Cub Camp are one week ahead of the numbers registered at this time last year and it looks as though the camp will be filled to capacity. Programs for campfires are already set up. A number of Cubmasters have already signed up to be on camp staff when it opens June 30th for one week.

1935 INSURANCE TAX, $6,56 ,149

SACRAMENTO, June 27.—Insurance companies doing business in California have been assessed for a tax of $6,566,149.08 on the basis of 1934 premiums, marking an increase of 18 percent over the corresponding tax for a year ago. This was revealed here today when the State Board of Equalization announced completion of the current tax roll.

All of the gain in the tax is attributable to the improved business of general insurance companies, according to an anaylsis of the levies made by the State Board. The term "general companies" as used by the Board, includes fire, casualty, life, accident and health, and other forms of general insurance, but excludes ocean marine insurance and companies taxed on a special retalatory basis because of discriminatory laws in their home states.

Total taxes on companies in the general group, as levied this year, are $6,419,449.88, in contrast with the 1934 levy of $5,234,712.12. This marks a gain of 22.6 per cent in the tax, which is computed at 2.6 percent of the gross premiums, subject to offset on account of real property taxes paid locally.

ROSEVILLE WILL HOLD BIG 4 DAY CELEBRATION

ROSEVILLE, June 27.—Plans are nearly completed for the big four day Independence Celebration to be put on in Roseville, Thursday, Friday, Saturday and Sunday, July 4, 5, 6 and 7. For three months a committee composed of prominent business men and leaders of various lodges and organizations, have been meeting twice weekly to make this celebration possible. They now have a program of entertainment lined up for the four days that will assure everyone attending that there will be something doing every minute.

The program will officially open on Wednesday, July 3, when a grand ball will be held at the City Park for ceremonies fitting to the Queen of the celebration, who will be selected by popular voting that has been going on for the past three weeks.

On Thursday, July 4, the Native Sons and Daughters of the Golden West will dedicate the new Woodbridge grammar school at 9 a. m. At 11 a. m. Senator Jerry Seawell will deliver the patriotic address from the platform on Vernon street. This will be followed by a water fight between the Roseville Fire Department and the fire departments from Auburn and Folsom. At 2 p. m. the competition between drum and bugle corps and drill teams will open at the city park.

On Friday, July 5, the day will be started by a Juvenile Jamboree and Pet Parade at 9 a. m. Following the parade the city park will be the scene of activities for children where they will have contests of racing and other stunts. At 2 p. m. a baseball game will be played between the Applegate CCC camp and the Sacramento and at 4 p. m. the Japanese Association will perform feats of Jiu-Jitsu wrestling and swordsmanship.

On Saturday, July 6, all fraternal organizations will meet for their big day, starting it off with a picnic. At 2 p. m. competitions will be held in the city park for drum and bugle corps and drill teams. 6:30 p. m. will see another gigantic street parade started, followed immediately by free entertainment from the Vernon street platform. At 8 p. m. fireworks will be displayed at the city park, again followed by dancing.

On Sunday, July 7, a double header baseball game will be staged at the city ball park and motorcycle racing and daredevil stunts an motorcycles will be held at the aviation field.

GASOLINE TAX IN MAY $3,566,465

SACRAMENTO, June 27.—California gasoline tax receipts for the month of May, 1935 amounted to $3,566,465.77, it was announced today by Mr. John C. Corbett, of San Francisco, member of the State Board of Equalization.

The taxes for the month of May, 1935 were $36,679.70 more than the taxes for the month of May in the year 1934. This increase represents a gain of 1.04 percent.

The taxable gasoline distributed in the state is more than holding its own with a distribution for May, 1935, of 120,083,018.4 gallons.

From these comparisons, the conclusions seems to be that the revenue for the first six months of the calendar year 1935 will compare favorably with that of the first six months of 1934. With the possible release during June of large surplus storage of gasoline, the first six months of 1935 may even surpass that of 1934. The outlook is most favorable.

STATE BUILDING ACTIVITY SHOWS HUGE INCREASE

SAN FRANCISCO, June 27.—Building construction continued to be the brightest spot among the business activities of California during May, according to the Bank of America Business Review, with all western states excepting Oregon and Washington showing increases over the same month last year.

May was the fifth consecutive month in 1935 to show a gain in building activity over the corresponding period of 1934 in the cases of both California and the entire far west, and five out of eight western states have reflected this uptrend.

Building permits in 32 California cities last month totaled $7,428,397, a gain of 113 percent over the like month last year, and a very large proportion of the total for all eight far western states, which had aggregate building permits amounting to $9,106,909 for the month. California's gains over last year have been outstanding during 1935, with January gaining 74.1 percent over the like 1934 month; February up 55 percent, March recording an incease of 100 percent and April, 175 percent.

Bank of America's preliminary May 1935 index of far western business stood at 63.7, which is 1.1 points lower than May, 1934, but 12 percent higher than May 1935 and 2.7 percent ahead of May 1932. The index declined 2.4 points from April due largely to a decrease in carloadings in the Pacific Northwest where the lumber strike influenced the showing of the territory.

May bank debits in California were up 23.9 percent in comparison with May 1934, employment in manufacturing industries gained 3.2 percent and retail sales, based on the monthly dollar volume comparisons increased 11.5 percent.

GREEN MOUNTAIN PROPERTY

The patent and title to the Green Mountain claim northeast and adjoining the Murchie mine east of Nevada City has been secured by Kistle Brothers and further development work will proceed at once. A compressor and mill are to be installed in the next few days. Ore is to be taken out within two weeks or as soon as the mill is ready to treat it. A four foot ledge at the end of a 400 foot tunnel averages $11.71 per ton. The property is owned by Charles and Norman Kistle, of Nevada City.

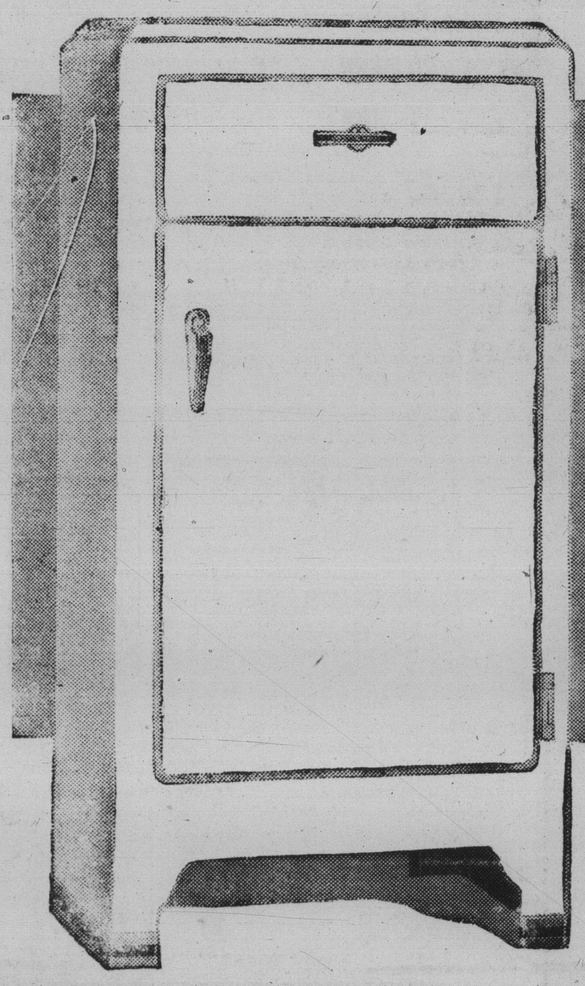
NOW YOU CAN BUY WESTINGHOUSE



NOW...YOUR BEAUTIFUL Westinghouse Streamline REFRIGERATOR INSTALLED TODAY

NO DOWN PAYMENT

·3· YEARS TO PAY

ONLY $5 PER MONTH. TWENTY DIFFERENT MODELS TO CHOOSE FROM, RANGING IN SIZE FROM 2½ TO 20 CUBIC FEET. ALL MODELS HAVE A 5 YEAR GUARANTEE PROTECTION.

GET FEATURES LIKE THESE:

1. Hermetically sealed mechanism.
2. No oiling required. You can not forget to oil it or over oil it.
3. Dual Automatic control. The only fully automatic refrigerator made. Automatic under any condition insuring an even temperature at all times.
4. Plenty of power for extremity 120 degree days with abundance of ice cubes or a frozen dessert in a hurry.
5. A mechanism with only 3 moving parts running in a bath of pure oil sealed from dirt to cause excessive wear.
6. A refrigerator so quiet you have to put your ear to it to hear it run.
7. Fast freezing over size froster, easily accessible for cleaning, and free from cracks and crevices for dirt to lodge.
7. Dial temperature control on outside of cabinet. You do not have to open the door to see where it is set.
8. Low operating cost, the most efficient refrigerator.
9. Stream line beauty.
10. Handy service tray on door.
11. "Ejecto-cube" ice tray, no rubber to taste and you do not have to run water over cubes to loosen them—they pop out dry and frosty cold.
12. Revolving shelf.
13. Triple storage compartment.
14. All acid-resisting porcelain interior.
15. Button touch door latch.
16. An exterior finish that will last.
17. Automatic interior light.
18. An ALL STEEL cabinet, not a single piece of wood in it, with the exception of our low-priced model that sells for $89.50 here.
19. REMEMBER THIS—It is easy to give a five year guarantee if you do not have these troublesome parts. They give trouble and require attention where ever they are in use—whether they are on your car, washer, vacuum cleaner or refrigerator. Some of them are Belts—they slip, come of, scratch, need tightening and often break, your first knowledge being when you find your refrigerator defrosted and the cabinet hot.

Brushes, too, are a detriment. They throw of hard carbon that gets in the bearings, causing excessive wear. They have to be replaced. Brush holders short out and commutators have to be turned down on a lathe and sand papered.

Pulleys loosen, cause extra wear on bearings, gears become noisy, cams and rollers work loose and create noise and loose their efficiency. Piston rings break and wear out. Armatures burn out and break their soder connections.

Wood absorbs moisture, dry rots, retains food odors, warps and screw pull out causing door to sag and heat seeps into the cabinet.

Remember — WESTINGHOUSE has none of these old-fashioned moving parts. No wonder Westinghouse can give you a five year guarantee on the sealed-in-mechanism.

We have NEVER had a Westinghouse owner pay us a cent for service on their refrigerator.

We have quoted you a few of the reasons why WESTINGHOUSE is at the top of the list of domestic refrigerator sales.

You do not have to own, or be buying a home, to get a WESTINGHOUSE with no down payment, three years to pay and only $5 a month. The terms are easy. You can buy under any plan you wish. Come in and let us tell you about it. Trade in your ice box if you wish.

GET A GENUINE WESTINGHOUSE BUILT BY A RESPONSIBLE COMPANY THAT WILL BE IN BUSINESS FOR YEARS AND YEARS.

Don't buy a refrigerator that is supposed to be "just as good," but see the WESTINGHOUSE first—you owe it to yourself.

METER PLAN BANK ★

Utterly new and different from ordinary "meter plans." We simply give you this handsome little bank which registers your daily savings . . . 25c at a time. It is *your* property, and is NOT attached to the refrigerator in any way . . . has no connection with its operation . . . can cause no embarrassment of any sort. No collectors to call. No increase in price or carrying charge. Let us give you all the facts on this plan at once.

California Leads Big Parade to Recovery

(By RALPH H. TAYLOR)

California is leading the entire Nation in "The Big Parade" toward farm recovery!

Such, at any rate, is the unmistakable trend indicated in both federal and state reports on total farm income and cash income per farm for the first quarter of 1935.

The state's crop income for March jumped 42 percent over March, 1934 according to the federal government's report, and skyrocketed nearly 100 percent over the same month in 1933. Livestock income also shot ahead, with the state's combined farm and livestock revenues leading the whole country.

Illustrative of the general upturn in California agriculture, the state's January-February crop and livestock income was $31,978,000 in 1933, $40,845,000 in 1934 and $53,465,000 in 1935.

And California exports for last year totaled $182,136,323, an annual increase of more than 25 percent, with every report indicating that the California export trade has stood up better than exports from any other section of the nation.

COOPERATIVE GAINS

Many factors have contributed to California's leadership in the drive back toward a stabilized and prosperous agriculture, but none more important than the widespread reach of cooperative marketing in the state.

Nearly 50 per cent of the state's production in major crops is handled by farmer-owned, farmer-controlled cooperatives which have both broadened and stabilized the markets for California products, affording an effective weapon in the fight against crop surpluses and breakdown of prices.

And of equal importance, the California farm co-ops, marketing close to $200,000,000 worth of produce annually, have pioneered the way in effective newspaper advertising of agricultural commodities.

Best evidence of the value of the advertising campaigns, and the general promotional work of the farm cooperatives, is the fact that California has been able to increase the demand for its "luxury products"—oranges, grapefruit, walnuts and avocados, for example—throughout an unparalleled period of depression.

This, in fact, is one of the most striking illustrations of the high-geared, modern efficiency of the California farmer—that he has been able to survive a serious period of economic upheaval in better fashion than his fellow farmers in other states, despite the fact that California's output falls largely in the luxury product classification.

MORE YIELD PER ACRE

Analyzing California's remarkable showing in the farm recovery parade it is also of first importance that the state's farmers have met the threat of depression by eliminating every unnecessary phase of overhead expense and thereby increasing their net income. And instead of placing more acres in production, they have tremendously increased production per acre—with consequent savings.

In cash income per farm, for instance, California led the entire United States, surpassing Iowa — the second state—by more than 40 percent.

Contributing to this record, without doubt, was the splendid cooperative work of the College of Agriculture, with its effective extension service and its exceedingly valuable research activities, and the State Department of Agriculture, which has achieved material savings for California farmers by its administration of the various standardization laws, its quarantine and pest control work and other services of outstanding importance to the state's farming industry.

And it is tremendously heartening that California agriculture despite the fact that it produces more luxuries and delicacies than staples, is leading the way back. The results are a tribute both to California farmers and their farm organizations and department.

First Barber: "What makes you so late?"

2nd Barber: "I was shaving myself and before I realized it I had talked myself into a haircut and a shampoo."

Have You Heard?

By KATE LEWIS

C. C. C.
Shasta County,

Dear Katie Lewis:

I read your article some time ago when you wrote of the three C camps and your sentiments of the work being accomplished here. I liked that article, and better still it makes me feel that I am not a stranger in the land after all.

Some times I think us boys belong to the class of forgotten men. Some of us are many miles from home and for months at a time we never see a familiar face. Pleace don't get the impression I am complaining. I am very glad that I have a job that enables me to keep out of the bum class and at the same time send a little cash home to the folks. I am very grateful that President Roosevelt made all these things possible for me.

I hope you wont think I am complaining when I say that a few years ago I was taught to attend strictly to my school work because it I didn't develop my brain I would have to make my living by laboring with my hands and back. This theory was pounded into my head until I was under the impression that it might be a disgrace or something to get out and do manual labor. So I studied hard. I put in extra hours in the journalism class. I wanted to be a reporter and some day an editor or a columnist. I felt that I had the ability to make my living with my brains.

At present the future looks pretty dark as far as personal desires and attainments are concerned. I have put in months driving a truck. All winter I was put in charge of the boys on road construction. And still more months I spent driving a caterpillar. At present I have advanced just about as far as I can go in this corp and now all my old ambition and desires are torturing me again. I want to be out and doing something about my future . . .

Miss Lewis, do you suppose this depression will ever end and that it will be possible for us boys to have regular jobs, marry, and be regular citizens?

Respectfully,
CALVIN B.

Dear Calvin:

I know just exactly how you feel. But listen, to me, Son, you aren't alone in the disappointment of your personal ambitions. The depression has caused every one of us to shelf our pet desires and patiently wait for better days to come. And believe me, when I say, that sometimes a bit of delay applied here and there is mighty good for we who are too ambitious and impulsive. But don't let the delay entirely wreck your ambition. It is a good time to study and think things out.

This is a strange world, Calvin. A few years ago we were taught to attend high school, and later college or, sure as Fate, we would have to go forth and labor mightily with our hands at street sweeping or some other miserable job that requires no great mentality. But today, if we care to investigate, we will learn that a college education isn't so vital. We know now that nearly every big man that ever made good has had very little schooling. I mean men who landed fine jobs with fine salaries have started out by doing common labor.

I realize that it doesn't require much skill to drive a truck or a caterpillar but it is teaching you what common labor is like and it has strengthened your determination to make your brains make your living.

I can see by the tone of your letter that you are not wasting your time for you say "I have advanced just about as far as I can go in this corp." If you ask me, I would say that you are doing a very great deal about your future.

You are learning that it is extremely hard on the back and hands to do common labor. You are learning that money is hard to obtain and its face value. You are learning to study the men in your corp and how to handle them. For nearly all good jobs means the expert management of a number of men. You are learning to hold down hard on your temper and to cooly reason things out because snap judgment is sometmes dangerous. You are climbing farther up every day and doing all the trifling little jobs that are in your way but necessary to your advancement.

You can just bet every thing you possess that this depression is going to end. Prosperity will be back before you are very much older. The good old United States has weathered depressions before this one and always come out of them bigger and better. There will be plenty of jobs. Salaries and commissions will be higher than we have ever known them to be. And you and me, Calvin B., along with millions of other people, will need the hard, hard lessons this depression has taught us.

NEVADA CO. LUMBER ADS COMMENDED BY EDITOR

Under the title "Newspaper Ads Give Glimpse of Building Activity," Jack Dionne, editor of "The California Lumber Merchant," makes this comment: "The Nevada County Lumber Company, Nevada City, is running a series of interesting advertisements in its local paper, the Nevada City Nugget. The ads titled: "Through the Knothole" have the regular newspaper make-up and carry items giving a glimpse of the building activity going on in the district. Oscar J. Odegaard is manager of the yard."

"Good heavens! Who gave you that black eye?"

"A bridegroom—for kissing his bride."

"But surely a man wouldn't object to that old custom—?"

"No— but this happened three years after the wedding."

WANTED—Clean rags at the Nugget Office.

NEW TAX LEVY ON LIQUOR JULY 1

Commencing July 1, 1935, all liquor other than beer and wine sold in this state will be subject to a state tax of 80 cents per gallon under the new Alcoholic Beverage Control Act recently passed by the legislature. The tax will be collected through the sale of tax stamps to be attached to bottles containing liquor. The stamps are of denominations ranging from two cents for two ounce bottles to 80 cents for bottles containing one gallon.

All stocks of liquor now in the possession of retailers must be stamped by July 1. Stamps will be available for distribution to retailers through various branches of the Bank of America by June 27. Retailers should immediately thereafter get in touch with the Bank of America and purchase the necessary number of stamps. After July 1, every retailer who has unstamped liquor in his possession will be violating the law and all such liquor will be subject to seizure.

All deliveries of distilled spirits to retailers on or after July 1, must be accompanied by a sufficient number of stamps to cover the bottles of liquor delivered. Manufacturers, wholesalers, rectifiers and importers making such deliveries must obtain the stamps for this purpose from the main office of the State Board of Equalization in Sacramento.

WESTERN AUTO SUPPLY STORE OPENS TODAY

The Western Auto Supply company has opened a branch store in Grass Valley at the corner of Main and Mill streets. This will be good news to all auto owners in Nevada county and the mining communities to the north and east.

D. H. Zink is the manager of the new store. Western Auto Supply is the world's largest and oldest retailer of automobile accessories. Mr. Kink states that the great service which this company renders auto owners —in 140 cities of the eleven western states will now be available here.

While this is the 185th Western Auto store, the policies of savings and service are the same now as they were back in 1916 when the company opened its first store in the west. The steady, amazing growwth from one to over one hundred eighty stores in 19 years is attributed to the consistent adherence to these fundamental principles.

"Our business was established on the foundation of honesty, satisfaction and a customer-is-always right policy. This policy has always been maintained as the basis of our relations with the buying public and will be adhered to in all our dealings at the new Grass Valley store." Zink asserts. "We guarantee every article purchased from us to be exactly as represented, and if the customer is not entirely satisfied, we refund his purchase price."

"One of the outstanding features of the Western Auto guarantees is that no matter which store sold the goods, all of the stores stand solidly behind it. Should any patron of this store have difficulty with his purchase while anywhere in the eleven western states, the store nearest him will be glad to make a satisfactory adjustment." he continued. "That is why our slogan "Save With Safety" has become famous throughout the west."

To aid the customer in finding quickly the thing that most nearly suits his purse and purpose, all articles are grouped by departments in cafeteria type bins, open shelves and display stands. Motorists will be able to find at a glance the department where the thing they want is stocked. There, all articles of a kind are together for easy comparison and quick selection.

The local Western Auto store offers a most complete line of automobile supplies, stocking more than five thousand articles. This assortment not only includes tire, batteries, oils and auto accessories, but also replacement parts, repair needs and tools, car and house radios, and camping and out door equipment.

"An outstanding feature of this and all other Western Auto stores," says Zink, "is the service its salesmen are enabled to give the customer as a result of the training they receive before they represent the company on the sales floor."

"They are thoroughly instructed in the service that our firm pledges itself to give, and every man is made to realize that the basic principles of our relations with the public are truth and sincerity. Every man is a specialist in his work—he understands the problems of the western motorist and is trained to assist in solving these problems."

CAMPTONVILLE COUPLE MARRIED IN RENO

A very pleasant surprise was afforded the community Monday when it became known that William A. Lang and Miss Dorothea Mark were married Saturrday at Reno in a quiet ceremony attended by Mr. and Mrs. Samuel F. Price of this place.

The groom is one of the best known citizens of this community, owner and operator of the Lang Garage, and school bus operator, well known and prominent in fraternal and community affairs.

The bride is a life time resident of this section, having been an orphan and lived with her grandmother, the late Mrs. Jennie Cunningham up to the time of her death. She attended local school, graduating from the local branch high school two years ago with high honors, and being an honor member of the graduating class of the San Juan high school (near Sacramento) this spring. She is a charming young lady of genial nature, a general favorite of her many friends.

They will reside here, and the community joins in hearty congratulations, wishing them much success and happiness.

TRUCKEE CAFE ROBBERS MAY BE FROM RENO

So far there have been no arrests of thieves who broke into the California Cafe in Truckee early on Wednesday morning and got away with four slot machines, two cases of champagne, eight kegs of whiskey, twelve cartons of cigarettes, eight boxes of cigars and a small amount of money.

Methodist Groups Enjoy Social Times

The Ladies Aid Society of the Methodist church enjoyed an old-fashioned picnic Wednesday afternoon at the private picnic grounds of Mr. and Mrs. Clarence Watters on Town Talk Ridge, a most beautiful spot among the tall pines with a clear cold stream of water flowing through it.

There were about fifty present for this the last meeting of the season for the society, the next one will be in September.

The Adult Bible class of the Methodist church held a social meeting in the church parlors last evening with about fifty present for a happy time. Games and a short program made the time pass all too quickly. Dainty refreshments were served at the close of the evening.

Thru the Knot Hole

A Glimpse of Building Activity

VOL. 1. JUNE 28, 1935. No. 12.

This weather probably makes you think of insulation. Redwood bark will give you comfort in this kind of weather and pay you cash dividends in fuel savings when the cold weather comes. You can't beat it.

Contractor Howard Ross has the frame erected and is placing the rustic exterior on the Hiscox job on the Tahoe-Ukiah highway at the city limits.

We will have, during the coming week some lovely full mirror Venitian Bath Cabinets that will sell for very much less than similar cabinets have sold in the past. It will pay you to see them.

The addition of a room on the school at North San Juan is progressing and will be finished soon. This addition will give this school much needed additional space.

The Community Hall in Nevada City at the City Park is being rapidly completed. The large front porch is being planned to use for band concerts and should be ideal for the purpose.

The writer had occasion to finish the interior of a plastered house recently and used Vello. This resulted in the finest wall finish we have ever had the pleasure of seeing. Stocked at the lumber yard in all colors and white.

WRONG WORD

Speed Fiend (as he slows down)—Gosh! Don't you feel glad you're alive?

Timid Passenger: Glad isn't the word. I'm amazed.

PINE AND COMMERCIAL NEVADA CITY

NEVADA CITY IS BUSY WITH JULY FOURTH FLOATS

Several from Nevada City attended the meeting of the Fourth of July committee in Grass Valley Wednesday evening and a number of floats were entered from Nevada City for the big parade to be held there the forenoon of the Fourth.

Elza Kilroy, of the local post office, is preparing a very handsome surprise float for Hydraulic Parlor No. 56, N. S. G. W., which will represent the month of February; others are to be Chamber of Commerce, Electrical Murray's shop; Nevada City Fire Department; Nevada County Lumber Company; Laurel Parlor, No. 6, N. D. G. W., Nevada City High School Band, Veterans of Foreign Wars; Camp Fire Girls of Camp Ahdenah; and it is understood several more are planning to enter the parade.

FUNERAL SERVICES FOR LATE MARY MAITLAND

Funeral services were held yesterday morning at 10 o'clock in St. Canice church for the late Mrs. Mary Maitland. Rev. Father O'Reilly celebrated mass for the repose of the soul.

Pall bearers were, John O'Neill, Jack B. Grissel, Dennis Coughlan, W. E. Johnston, Frank Murphy, Rony Costa. The many beautiful floral pieces at the service attested to the love and esteem in which Mrs. Maitland was held.

The deceased was born in Michigan 78 years ago and came across the plains with her parents, the late Mr. and Mrs. Phelan who settled in the Shady Creek section. She speent her girlhood on the Phelan ranch there.

Later she conducted a restaurant in Nevada City and she is well remembered by many for her kindly deeds and helping hands.

During the past two or three years Mrs. Maitland had been serving as housekeeper for Rev. Father Hayes, the Catholic priest at Placerville. It was while working there that eventually resulted in her death.

NEW GROCERY STORE SOON READY TO OPEN

Contractor John Bertelsen has almost completed the new store of Messers. Angilini and Cicogni at the corner of Main street and Union Alley in this city. The Spanish style building adds much to that section and fills a corner long vacant.

It is 26 feet wide by 65 feet long and will have modern conveniences of shelving and counters. They expect to be able to move their grocery stocks from the Sacramento street store to the new location this week. A concrete sidewalk on the south side of the building was completed yesterday.

NEW HOME FOR DEPUTY SHERIFF LARSEN

In recent weeks Deputy and Mrs. Carl Larsen purchased a lot just across the street from where they are now living on Pine near Glennon's service station from Mrs. Penrose. Erection of a new five room home started early this week by the laying of the concrete foundations.

Fred Cooper, of Oakland and one of the owners of the house Mr. and Mrs. Larsen reside in, states plans are to remodel and repair the property.

Personal

Mr. and Mrs. Paul Langerquist have purchased the home of Mrs. Davidson at the corner of Clay and Nimrod street just within Nevada City's southern limits.

Major W. Downey, milk inspector of Oakland, was a Nevada City visitor early this week. He was enroute to Downieville the city named after his father in early days and where he was born and reared, to spend his annual summer vacation. Mr. Downey lived in Nevada City for some time years ago and enjoys meeting his many friends here also.

Mr. and Mrs. C. B. O'Connor has as week end guests Mr. and Mrs. Robert King of Sacramento.

Mr. and Mrs. Bert Davidson, owners of the Queen mine at Orleans Flat were Nevada City visitors yesterday. Mr. Davidson has been doing considerable development work and stated that from the way things look expects to take out a million soon.

Mr. Hal D. Draper left last evening for Fresno being called there to give expert testimony before the State Industrial Accident Commission. He will return home Saturday.

Mrs. Earl Brown, mother of Charles Marsh Brown, and a former Nevada City resident, came up from Berkeley Sunday and will remain until after the Fourth visiting with her son and his family.

Mrs. Jackson Chase Reed, and two sons and daughter, and Mrs. Reed's father, John Richard Pavilla, of Sloat spent a few days this week visiting with Mrs. Reed's sister, Mrs. Christian Andersen. Mr. Pavilla will remain for a longer visit with his daughter, Mrs. Andersen, while Mrs. Reed and children returned home Wednesday.

J. J. Jiner of the Red Ledge district seven miles south of Alleghany is spending a couple of days in Nevada City visiting with old friends.

Wilbur Grant, Sam Eastman and W. S. Small, all of Sonora, accompanied by Ed C. Uren, minin engineer of this city, spent Tuesday at the Arctic mine and in Graniteville.

Mrs. A. M. Clark of San Jose arrived in Nevada City Tuesday for a visit with her daughter, Mrs. Will Carter, and Mr. Carter, and grandson, Clark Carter the latter recently graduated from the naval academy.

Chief of Police Garfield Robson and Mrs. Robson, and Mr. and Mrs. H. H. Hallett, enjoyed a motor trip to Sacramento Monday evening.

Mr. L. P. Lerrigan, liquor administrator of the Marysville district, stopped over Tuesday for a visit with his assistant, Russell Farley and Mrs. Farley. He was accompanied by his wife, they proceeded to Lake Tahoe.

Mrs. Alice B. Moore a recent bride from Klamath Falls, Oregon, arrived in Nevada City this week for a visit with her father, Ed Dean and family.

Mrs. Henry Schroeder who has been quite ill for some time past is improved and was able to take a drive early in the week. Mrs. Schroeder is at present with her sister Mrs. Fred M. Miller in Grass Valley.

AHDNEAH GROUP

At their last meeting Ahdnah Group of Camp Fire Girls of Nevada City, elected officers for the ensuing term. They are Rose Ponticelli, president; Betty Smith, vice-president; Zella Flindt, secretary and song leader; Sylvia Moody, treasurer; and Jean Martz, scribe. The girls are to take their Wood Gatherers Rank in the last part of July. The group of thirteen girls and two guardians have renewed their membership at headquarters in New York.

A meeting was held last evening at which time definite plans were made for entering the Fourth of July parade in Grass Valley. The girls will march in their service uniforms.

WINE SEIZED

Mr. Hayden Saunders, Deputy U. S. Marshal of Sacramento was in Nevada City Tuesday and Wednesday of this week. Mr. Hayden with Mr. Russell Farley, board of equalization administrator of this district, poured out the wine seized at the home of Giacomo Fontana of this city recently through an order from the U. S. District Court Mrs. Saunders and son, Stanley visited at the home of Mr. and Mrs. Farley.

BUILDING ACTIVITY

Auburn — Retail Trade — Retail trade in this section during May showed marked improvement over recent months according to reports from local merchants.

Building Activity — Builders report residential building at the highest level in years. Employment among building tradesmen is practically 100%. —From June Bank of America Business Review.

PAHATSI OPEN TO CAMP FIRE GIRLS

As usual the Camp Fire Girls of Nevada and Placer counties will use Camp Pahatsi for their annual summer encampment. As part of the summer camp program for the youth of the two counties, the executive board of the Boy Scout Council authorized the use of Camp Pahatsi by the Camp Fire Girls again this year. The Yallani association of Camp Fire guardians is directing the summer camp, which will open July 28, following the Scout encampment.

The guardians' association is composed of the Camp Fire guardians of both counties, and was formed for the purpose of promoting the interests of the girls of this district. The association is actively planning a diversified camp program, with many of the guardians registered for the camp staff. Overnight and all day hikes have been given a definite place in the program.

The facilities of Camp Pahatsi are well known to the parents of this district, through the wonderfully successful camps of the past five years, and it has proven an ideal place to send boys and girls. Isolated yet convenient for transportation, Camp Pahatsi offers all the features of outdoor life at high altitudes, under safe conditions.

Mr. Don Strandberg has just returned from a weeks vacation spent in San Francisco on business and pleasure.

CHERRIES ARE RIPE AT LOMA RICA RANCH

There is an abundance, in fact, tons and tons of cherries, on the big Loma Rica ranch orchard, southeast of Nevada City, waiting to be sold. A sample of these fine fruits were brought to the Nugget office, they are of splendid flavor and texture. The wet winter and absence of hail storms assisted in making a fine fruit season for the orchard. An ad. appears elsewhere in this paper in regard to the cherries. There are Royal Ann, Lamberts, Oregon Blacks etc.

This ranch was purchased by Mr. Errol MacBoyle when the Idaho-Maryland company purchased the mineral rights to the property. This busy man finds time to enjoy the managing of a large acreage of diversified crops. The orchard also contains several varieties of the fine apples.

Mr. MacBoyle also owns the surface rights on the Brunswick property and there has a group of choice Percheron mares and an Arabian stallion, besides a herd of registered Ayreshire cattle.

The entire property is a game preserve, many pheasants being hatched and turned loose last year. The birds are now running wild on the large ranch property. Ed Fisk is ranch foreman.

Dean Jeffress and friend of the bay district were recent visitors at the home of Mr. and Mrs. Charles M. Brown. Mr. Jeffress is a nephew of Mr. Brown.

MAY LIQUOR TAX TOTAL $148,714

SACRAMENTO, June 27.—California taxes on beer and wine sold during May, 1935, computed at two cents per gallon, amounted to $148,714.46, an increase over the same taxes for May, 1934, of $12,058.87, or 8.8 percent. Orfa Jean Shontz of Montrose, Member of the State Board of Equalization, made this announcement here today when the Board completed the beverage tax assessment roll for May.

Of the beer consumed, 5,444,046 gallons or 91 percent, were California brewed. The Board's records also indicate that very little imported wine was sold in California, such imports accounting for only 27,872 gallons, as contrasted with 1,425,512 gallons of California wines.

The usual seasonal increase in beverage consumption is indicated by the fact that the May sales amounted to 948,707 gallons more than those for April, an increase of 14.6 percent.

GOODBYE MUSSOLINI! HELLO UNCLE SAM!

Eugene Barberi, with eight others just admitted to citizenship, was treating friends at his cafe in lower Broad street. One of them proposed this toast. "Goodbye Mussolini, Hello Uncle Sam!" Many friends dropped in to congratulate the proprietor of the cafe on the honor of his new citizenship.

MISS ROBINSON RECOVERING NICELY

Miss Sally Robinson, daughter of Mr. and Mrs. Harry Robinson of Fallon, Nevada who underwent an appendectomy at the Jones Memorial hospital on Monday is doing very nicely and it will not be many days before she is up and about again. Dr. W. W. Reed and C. P. Jones were the operating surgeons. Miss Robinson with her mother live with her grandmother, Mrs. T. S. Ford, during the high school sessions and is one of the most popular girls in the younger set who are all very glad to hear that she is doing so nicely.

SOCIAL EVENTS

Garden Party at Parsons Home

Mrs. C. E. Parsons has entertained several small groups of friends in honor of her house guest Mrs. Alta Rowe of Sacramento this week. For this afternoon she has planned a garden party and the contract tables will be placed about the beautiful gardens of the Parson's home. This is always a treat to the ladies as besides the card games they enjoy strolling about the gardens. Mrs. Parsons will have as her guests this afternoon Mesdames: Raymond Slinch, Mrs. J. W. Hammill, Mrs. Harold Crase, Mrs. John K. Osborne, of Grass Valley, the honor guest, Mrs. Alta Rowe, of Sacramento and Mrs. Wm. Simkins, Mrs. Robert Nye, Mrs. Edward C. Uren, Mrs. Otto E. Schiffner, Mrs. George Legg, Mrs. Martha B. Hogue, Mrs. Harley M. Leete, Mrs. Belnap Goldsmith, Miss Winnie Mulloy, Mrs. Walter Hawkins, and Mrs. Elsworth Bennett of Nevada City.

Young Couple Married Tomorrow

Saturday, June 29 has been set as the date for the wedding of Miss Maurene Perry, daughter of Mr. and Mrs. Wm. C. Perry. The ceremony will take place at the home of the bride at seven o'clock, the ceremony being performed by Bishop Thomas Carter of the Latter Day Saints church.

Miss Lucile Perry, sister of the bride to be will be maid of honor and Miss Dorothy Feagans will be the bridesmaid. Thomas Wasley will attend the groom as best man.

Following the ceremony a reception will be held at the bride's home in honor of the hapyy young couple.

Bride To Be Honored

Mrs. Jack McLaughlin of Gold Flat proved a most delightful hostess Wednesday afternoon at a miscellaneous shower honoring Miss Alice Harry, who will become the bride of Theodore Thibait of Hobart Mills in the near future.

Twelve were seated at the prettily appointed luncheon table decorated with a profusion of flowers and pink crepe paper.

The table was centered with a large basket of pansies and ferns. Miss Harry received many pretty gifts with best wishes for happiness for the future. Miss Harry who taught in the Gold Flat school last year and won a warm spot in the hearts of all who knew her for her sweet and charming personality.

Those present were: Mesdames. Zelda Brown, Leonard Rockefeller, Harold Clemo, Harry Odgers, McKinley Lotz, Marie Samora, John Deschwanden, Frank Walker, Joseph Day, Miss Alice Harry and mother, Mrs. William Harry, and the hostess.

Mrs. George Legg Hostess Wednesday

Mrs. Alta Rowe of Sacramento, guest of Mrs. C. E. Parsons, has been the motif for a number of social affairs this week.

Wednesday afternoon Mrs. George Legg hostessed twelve guests at an afternoon of contract. Recipients of favors for high scores at the games were Mrs. Robert Nye, Mrs. C. E. Parsons and Mrs. Alta Rowe.

During the afternoon Mrs. Legg served cooling refreshments on her summer porch. Mrs. Legg's guest list included: Mrs. Martha Hogue, Mrs. Harry Cox, Miss Gertrude Goyne, Mrs. John Osborne, Miss Royce, Mrs. L. S. Wincapaw, Mrs. Otto E. Schiffner, Mrs. Harley M. Leete, Mrs. Robert Nye, Mrs. C. E. Parsons and the complimented guest Mrs. Alta Rowe.

Sacramento Visitor Honoree at Party

Mrs. Otto E. Schiffner invited a group of friends in yesterday afternoon to meet Mrs. Alta Rowe of Sacramento, who is a guest at the C. E. Parsons home.

Contract was the diversion of the afternoon. Following the games Mrs. Schiffner served late afternoon refreshments. Invited guests were: Mesdames. Walter Hawkins, Belnap, Goldsmith, George Legg, Martha Hogue, Harley M. Leete, W. E. Wright, Ed Uren, John K. Osborne, Etta Los Kamp, Mrs. C. E. Parsons, Mrs. Robert Nye and the honoree, Mrs. Alta Rowe.

Prizes for high scores were awarded to Mrs. Edward C. Uren, Mrs. George Legg. Consolation prize to Mrs. Robert Nye. The guest of honor was presented with a dainty gift.

Shower for Bride To Be

Miss Maurine Perry, bride to be, was honored at a surprise miscellaneous shower Tuesday afternoon at the home of Miss Dorothy Feagans. Miss Perry received many lovely gifts that she will use after she becomes the bride of Ernest Beck, Saturday evening, at the William Perry home on Main street.

Dutch whist was the diversion of the afternoon with honors going to Misses Margaret Thomas and Dolly Jefferson. This was followed by a dainty luncheon.

Those invited were Misses Isabel Dunlap, Dorothy Feagans, Katherine Hecker, Irene Glennon, Dolly Jefferson, Lucille and Maurine Perry, Margaret Thomts, Phyllis and Margery Williams, Naomi Whitley, Gertrude Widle, and Mesdames Virginia Browning, Valencia Hurst and Gary Feagans.
